

INTERNATIONAL JOINT CONFERENCE ON  
ENVIRONMENT AND LIGHT INDUSTRY TECHNOLOGIES  
**INTERNATIONAL SYMPOSIUM ON  
INNOVATIVE TECHNOLOGIES AND DESIGN**  
**21-22 NOVEMBER, 2011 / BUDAPEST**

## CALL FOR PAPERS

INTERNATIONAL SYMPOSIUM ON INNOVATIVE TECHNOLOGIES AND DESIGN WILL PROVIDE A VALUABLE FRAMEWORK FOR DISCUSSION AND ANALYSIS ENCOURAGING RESEARCHERS AND PROFESSIONALS TO EXCHANGE IDEAS ABOUT PROCESSING TECHNOLOGIES AND DESIGN.

The current economic situation reminds us that growth eventually meets a limit and needs re-thinking in production and consumption. We hope that the conference gives us an opportunity to present new achievements – design ideas in multidisciplinary environment, materials, technologies- and new methods in education regarding the processing industry area. The aim of the conference is to overview and analyse problems and common teaching possibilities in the European Higher Education Area.

**Our symposium focuses on innovation, technics, education in textile, garment and leather industry.**

### Topics within the scope of symposium:

- new materials
- development of technologies and products
- design and fashion
- modelling and simulation
- marketing and management
- analysis, testing and metrology
- education
